## Laser Therapy

Laser therapy helps relieve pain levels and repair tissue damage, among other valuable therapeutic benefits. By accelerating the healing process with increased circulation and enhanced tissue repair, laser therapy decreases inflammation and pain. In the management of chronic and acute pain, we have teamed up with the preferred choice for thousands of practitioners worldwide.

Laser Therapy  
can be used on  
up to 80% of  
procedures.

### Q: How many laser treatment sessions are necessary?

A: The measurable effects of laser therapy are cumulative in nature, and usually require multiple treatments. Many times, the patient will experience relief immediately after the first treatment. The number of sessions will depend on the condition, age and overall status of the patient. In general, conditions can be treated more quickly and require fewer visits, typically 1-3. Chronic conditions may require more visits.

# Customer's Bill of Rights

Medna Medical is proud to abide by the Medna Customer's Bill of Rights for the Medical Industry which protects our customers from any negative experience they might otherwise have from other medical supplies companies:

- 1 We will treat our customers the way we would like ourselves and our families to be treated.
- 2 We guarantee our customers will receive honest and ethical advice, service and pricing.
- 3 The Customers' best interest will always take precedence in the transaction and not the representative's best interest.
- 4 We will clearly explain the pros and cons of all options presented so the customer can make a wise, informed decision.
- 5 We will deliver on 100% of our promises, by never making promises we cannot keep.
- 6 The customer will always receive fast communication from their representative.
- 7 Clear expectations will always be set and agreed upon by the customer and representative, to avoid misunderstandings and unnecessary problems.
- 8 All quotes will clearly state all prices and fees up front- protecting you from surprise costs like shipping, installation, duties, brokerage fees, and price changes.
- 9 We will invest in the most advanced equipment in our industry to ensure our customers get the best and fastest service possible.
- 10 Our technicians will have no less than 5 years-experience before working in the field for our customers.
- 11 We will protect our customers with the best warranties in our industry.

# How Does Your Medical Supplier Rate?

For your convenience, we've provided this important checklist with all the questions you'll want to ask before buying the products you need.

## Company Status

- Has Offices, Inventory & staff (non 1-Man show or Drop Shipper)
- Stock 80% of items in Canada (Same/Next Day Shipping)
- Single Vendor Capable (Full Product Line & Support, including X-Ray)

## Canadian Vs. USA Supply & Service

- Local Service & Support Technicians (No "Technician Fly in Costs and Delays)
- Canadian Warranty (No Ugly Cross-Border Nightmares!)
- Canadian Service Depot (For All Products Sold)

## Shipping & Customs

- No Unknown Fees for Shipping or Customs Brokerage
- Pick any shipping company you want (Some Force Expensive Ones!)

## Service & Support

- Next Day Support Guarantee
- Maintenance & Service Agreements on 100% of Products Sold
- Loaner Equipment Available (Avoid Costly Downtime)
