NORTH AMERICA

Medna
Medical Equipment Inc.

The Z60 Vet Ultrasound System is a comprehensive choice for veterinarians seeking innovative and high-performing ultrasound technology. A compact System, the Z60 Vet combines unsurpassed image quality with ease-of-use, and practical functionality, while meeting the financial goals of any practice.

Performance. Portability. Precision.

Full-Featured Imaging Technology

The Z60 Vet is a powerful and versatile Ultrasound System complete with workflow advantages and imaging capabilities for on-the-go veterinarians. Equipped with advanced technologies including iBeam™, iClear™, and Phase Shift THI, the Z60 Vet System provides greater diagnostic confidence across a wide range of clinical applications, leading to quality animal care.

Comprehensive Clinical Applications

An array of durable transducers are available, making the System the perfect solution for a wide range of animals and clinical environments.

User-Friendly Ergonomics

The Z60 Ultrasound System incorporates an intuitive user interface and ergonomic design. Its compact size provides enhanced mobility allowing the Z60 Vet to perform anywhere, anytime.
